

## L7A

All Daniamant Lifejacket lights are designed to deliver, as a minimum standard, the 0.75cd output specification and 8 hour duration required by IMO SOLAS regulations.

The L7A light slides into the housing unit which is permanently mounted in the life jacket, only the small dome remains invisible. The light is safe and easily replaced after 5 years.

**NSN: 4220-99-812-4862**

Note: The L7A supersedes the earlier L7 which is no longer available
